THE KEY MANAGEMENT FUNCTION

Keyed To Differ (KD)

Cylinders to differ are all operated by individual keys all different to each other.

Keyed Alike Suites (KA)

All cylinders are operated by the same key. This gives an arrangement where one key will open a group of locks.

Common Entrance Suites

Each individual key is opened its own lock and the common entrance.

Master Key Suites (MK)

A group of cylinders, each equipped with an individual servant key, is also operated by one special key known as the master key. Keyed alike groups can also be incorporated into any master key suit.

Construction Key (CK)

Construction key can operate the cylinder during construction period. After construction is ended up, Master Key can insert the cylinder and change the pin combination. The construction key can not open the same cylinder lock any more.

WATERPROOF WEATHER STRIP
Features:BY Multi-channel silicone oil treatment, better waterproofeffect ,adding anti-aging ingredients,not easy to powder aging.Wool filament after special processing, elastic, more than50,000 times of friction withoutdeformation, durable wear resistance, better resilience.

PVC OR FABRIC FINNED WEATHER FOR DOORS AND WINDOWS
Features:Waterproof and sound-proof, 5-10 timesbetter in the sealing performance.Reducefriction, durable use, energy saving andenvironmental protect and higher efficient.

PVC OR FABRIC FINNED WEATHER FOR DOORS AND WINDOWS
Features:Waterproof and sound-proof, 5-10 timesbetter in the sealing performance.Reducefriction, durable use, energy saving andenvironmental protect and higher efficient.

SUPER HIGH & STRAIGHT WEATHER FOR SCREEN DOORS SERIES
Features:It has the characteristics of mosquito repellent, super high, goodelasticity, super straight, wear-resistant, waterproof and so on.
